Who Should Attend
Business Owners, Key Managers, Entrepreneurs, Business Advisors, Lenders, CPAs (CEU credits are available) and others whose decisions have an impact on your company’s financial performance. Our Profit Mastery Program is designed to enhance the financial management skills of all business people.

About The Workshop
This is practical stuff!! Get ready for two down-to-earth days. You’ll leave with a process to evaluate the performance of your business and a strategy to implement change. Along with other owners and managers, you’ll analyze actual business problems and situations. Together, you’ll find useful solutions in a stimulating exchange of ideas.

Valuable Reference Material
The workshop includes a detailed manual and the case studies used in class.

TAKE ACTION NOW...Ensure the Financial Stability of Your Company Today!

What Participants are Saying About Profit Mastery:

“The Profit Mastery series is an amazing course that definitely provided me the financial insight re how I can better control my company’s profits and cash flow. This series is great for well-established businesses trying to understand how to improve profit and cash flow. The hands-on exercises and flow charts enabled me to apply the methods to my business. We were able to pinpoint areas in virtually all departments where we could improve our performance. Profit Mastery is a valuable tool for us.”

Russ Sorkness, President of Sorkness Aviation (Kent)

http://sorknessaviation.com

“Within the first 15 minutes of the Profit Mastery workshop, I learned real changes that I could make that would affect the cash cycle in our business. By the end of the course, I was thinking about our numbers and cash flow in a completely different way. I have gone from fearing and avoiding the numbers to calling my business partners to set up meetings to analyze and discuss them. I would strongly encourage every business owner to take this course. I have a clear understanding of why 80% of small businesses fail, and confidence that we will be in the 20% that succeed.”

Suzy Green, Co-Founder of Three Trees Yoga (Federal Way)

“This is what small biz owners need to know to be successful. Well presented, concise. After taking this course I can't imagine running my business without using these tools. This is exciting to have a way to measure the past and plan for the future.”

January 2012 participants (Lacey, WA)

“At first I was skeptical of the program, but within the first thirty minutes I learned a valuable tip that more than paid for the class. I was able to show my customers where they were not capturing potential profit and how they could fix the problem. I have suggested the Profit Mastery course to many of my customers.”

Paul R. McDaniel, eStreamline, LLC, Federal Way WA

“The Profit Mastery class has helped me to measure our business in more concrete ways, and to project and set goals. The information that was presented was sort of counter-intuitive, so a person is not likely to get it on their own. The class taught us to put a more accurate value, a price, on what we do. Since having taken the class, I have changed our margins to more accurately reflect the value of both our products and our service. And, since I have done that, I feel our company is a much more healthy company, and our future is that much more bright.”
